Absenteeism & Tardiness

Purpose: To ensure regular, timely attendance so adequate staffing is available at all times, in order to provide for the best possible service.

Policy: Employees must report to work on time, and may not be absent from work unless absolutely necessary, and/or with supervisor approval.

Procedure:

I. Absence.

- a. Employees are asked to call the supervisor on duty at least four (4) hours in advance, when possible, when they are going to be absent. Do not call dispatch to leave a message.
 1. We understand that sometimes, absence will be a sudden event, and adequate notification is impossible. In these instances, as soon as you know that you will be absent, you should notify EMS of LeFlore County immediately.
 2. If you are absent due to an illness for 48 hours or more work shifts, EMS of LeFlore County requires written documentation from a doctor to be medically cleared to return to work.
- b. When you will be absent for consecutive shifts, you must call in each shift to ensure proper scheduling. EMS of LeFlore County will never presume consecutive days of absence for sickness, and always expects each employee to arrive for work on time, unless otherwise notified in accordance with this Policy.
- c. Employees that do not call in to indicate that they will be absent for two (2) consecutive shifts will be considered to have voluntarily terminated employment.

II. Tardiness.

- a. We understand that sometimes, lateness will be a sudden event (traffic accident, child care issues, car troubles, etc.), and adequate notification is impossible. In these instances, as soon as you know that you will be late, you should notify your supervisor.

III. Documentation and Penalties.

- a. All absences and tardiness will be recorded in your personnel file along with any advance notice that was or was not provided. Attendance records will be considered when evaluating completion of the introductory period, requests for promotions and transfers, and as part of the annual review, in accordance with the "Performance Feedback and Goal Setting" Policy.

- b. Employees that call in sick more than 6 days per every 12 months will be subject to disciplinary action.
- c. One (1) uninterrupted period of illness will be considered one (1) absence for the purposes of this policy.

Applicants and Employees may be required to submit to drug and/or alcohol testing in the following situations:

A. Applicant and Transfer/Reassignment Testing – LeFlore County EMS may require an applicant to undergo drug or alcohol testing and may use a refusal to undergo testing or a positive test result as a basis for refusal to hire the applicant. An applicant with a positive test result may reapply for employment with LeFlore County EMS after six (6) months from the positive test result. LeFlore County EMS may also require an employee who transfers to a different position or job, or who is reassigned to a different position or job, to undergo drug or alcohol testing.

B. Employee For-Cause Testing – LeFlore County EMS may require an employee to undergo drug or alcohol testing at any time it reasonably believes that the employee may be under the influence of drugs or alcohol, including, but not limited to, the following circumstances: (a) drugs or alcohol on or about the employee’s person or in the employee’s vicinity; (b) conduct on the employee’s part that suggests impairment or influence of drugs or alcohol; (c) a report of drug or alcohol use while at work or on duty; (d) information that an employee has tampered with drug or alcohol testing at any time; (e) negative performance patterns; or (f) excessive or unexplained absenteeism or tardiness.

This LeFlore County EMS drug and alcohol testing program is designed to test for drugs and alcohol as defined in this Program.

V. TESTING METHODS AND COLLECTION PROCEDURES

A. Alcohol Tests

1. Collection – Initial and confirmation alcohol tests may be performed using any type of sample from which a measurement of alcohol content in the person's body can be made, including without limitation, breath, saliva, blood, or urine samples. However, blood and urine will only be used for alcohol tests under limited circumstances.

2. Documentation – Alcohol testing facilities will use internal chain of custody procedures to maintain control and accountability of specimens from receipt through completion of testing, reporting of results, during storage (if applicable), and continuing until final disposition of specimens.

3. Limited Appeal of Positive Alcohol Test Results – An employee or applicant whose alcohol test was positive only has the right to appeal the positive test result by requesting a confirmation test in order to challenge the results of the positive test. In no circumstances may a request for a confirmation test be later than twenty-four (24) hours after receiving notice of the positive test, and, in some instances (such as breath analyzed by an evidential breath testing device or an alcohol swab test), the request must be made in a timely manner. The employee or applicant shall pay all costs of the confirmation test, unless the confirmation test reverses the findings of the challenged positive test. In such case, LeFlore County EMS will reimburse the individual for the costs of the confirmation test. There is no other right for an employee or applicant to appeal a positive alcohol test result.

B. Drug Tests

1. Collection – After an employee or applicant has been identified for drug testing, samples of the tested individual's urine, hair, or saliva may be collected on LeFlore County EMS property or at a designated collection site. The collection of samples will be performed under reasonable and sanitary conditions and with due regard to the privacy of the individual being tested.

2. Testing – After the specimen is taken at the collection site for testing, it may be sent to a laboratory where it will be tested.

3. Documentation – Collection and testing facilities will maintain a written record of the chain of custody of the sample from the time of the collection of the sample until the sample is no longer required.

4. Appeal of Positive Drug Test Results – An employee or applicant whose drug test result is positive has the right to request a confirmation test or re-test within twenty-four (24) hours of

receiving notice of a positive test in order to challenge the results of a positive test. The employee or applicant shall pay all costs of the confirmation test or re-test, unless it reverses the findings of the challenged positive test. In such case, LeFlore County EMS will reimburse the individual for the costs of the confirmation test or re-test. The individual has no other right to appeal a positive drug test.

VI. CONFIDENTIALITY OF TEST RESULTS

Records of all drug and alcohol test results and related information maintained by LeFlore County EMS shall be the property of LeFlore County EMS and, upon the request of the applicant or employee tested, will be made available for inspection and copying to the applicant or employee.

Records of all drug and alcohol test results and related information maintained by LeFlore County EMS may be released by LeFlore County EMS for any of the following purposes: (1) as admissible evidence by LeFlore County EMS or the individual tested in a case or proceeding before a court of record or administrative agency if either LeFlore County EMS or the individual tested is a named party in the case or proceeding; (2) in order to comply with a valid judicial or administrative order; or (3) to LeFlore County EMS employees, agents, and representatives who need access to such records in the administration of the testing program. Except in these specified circumstances, LeFlore County EMS will not release such records to any person other than the applicant, employee, The Director, Deputy Director, or HR.

Refusal to consent to a search or inspection may result in disciplinary action, up to and including discharge.

VIII. PROHIBITED ACTIVITIES AND DISCIPLINARY ACTION

As part of this Program, the following activities are prohibited. Applicants will normally not be hired and employees will normally be subject to disciplinary action, up to and including discharge, for any violation of this Program, including, but not limited to, the following reasons:

A. Impairment – Being under the influence of any substance, alcohol, or illegal drugs, that impair the employee's sight, hearing, balance, reaction, reflex, or judgment while on LeFlore County EMS property or while performing LeFlore County EMS business is prohibited and may result in disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation.

B. Possession – The use, sale, possession, transfer, or purchase of drugs or alcohol on LeFlore County EMS property or while performing any LeFlore County EMS business is prohibited and will normally result in disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation. LeFlore County EMS prohibits the use, sale, possession, transfer, or purchase of any substance that may impair an employee or cause the employee to be a safety risk. However, the proper and appropriate use of prescribed drugs by the person for whom they were prescribed and in the method prescribed is not prohibited.

C. Medication – Except as required in the performance of job duties, bringing a prescribed drug onto LeFlore County EMS property by any person other than the one for whom it is prescribed is prohibited and may result in disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation.

Prescription drugs may be used only in the manner, combination, and quantity prescribed. The employee, however, must not be impaired or be a safety risk while taking prescription drugs. Similarly, non-prescription drugs, such as over-the-counter drugs, may be used in the manner, combination, and quantity as directed on the label. LeFlore County EMS prohibits the use of any substance, whether legal or illegal, prescription or non-prescription, which impairs an employee's ability to perform his or her job in a safe manner. Employees adversely affected by their use of any legally obtained drug (prescription or non-prescription, and including medical marijuana) may not be allowed to perform their regular job in such a condition. Employees who are unable to work safely due to impairment resulting from such drugs may be suspended without pay until the impaired condition has passed if the employee is unable to be temporarily transferred to another job until the impaired condition has passed. LeFlore County EMS does not provide any guarantee that a job transfer would be available.

D. Medical Marijuana – Although marijuana may be permitted in Oklahoma for "medical" purposes, LeFlore County EMS prohibits the use and possession of marijuana by employees on LeFlore County EMS property or while performing LeFlore County EMS business during the hours of employment.

E. Report of Medication – It is the responsibility of employees in positions that affect public safety and applicants for such positions to advise the Health and Safety Coordinator of the necessity to take any medication that may cause them to be unable to perform their job safely. An employee making such a report should complete and submit a completed Medication Information Sheet, which requires a medical release from a licensed healthcare practitioner. An employee who fails to make a necessary report and comply with the necessary requirements will normally be subject to disciplinary action, up to and including discharge, and such discharge may be considered misconduct for purposes of unemployment compensation. An applicant who fails to make a necessary report and comply with the necessary requirements may be refused employment.

F. Positive Test – An employee who tests positive for drugs or alcohol will normally be subject to disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation. An applicant whose drug or alcohol test result is positive may be refused employment.

G. Refusal To Undergo Testing – Refusing to undergo drug or alcohol testing is prohibited and will normally result in disciplinary action, up to and including discharge, and such discharge may be considered misconduct for purposes of unemployment compensation. An applicant who refuses to submit to a drug or alcohol test may be refused employment. Adulteration of a specimen or of a drug or alcohol test is considered a refusal to test.

H. Refusal To Consent To Testing – Refusing to execute any consent, release, or other document in connection with this Program is prohibited and will normally result in disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation. An applicant who refuses to execute any consent, release, or other document in connection with this Program may be refused employment.

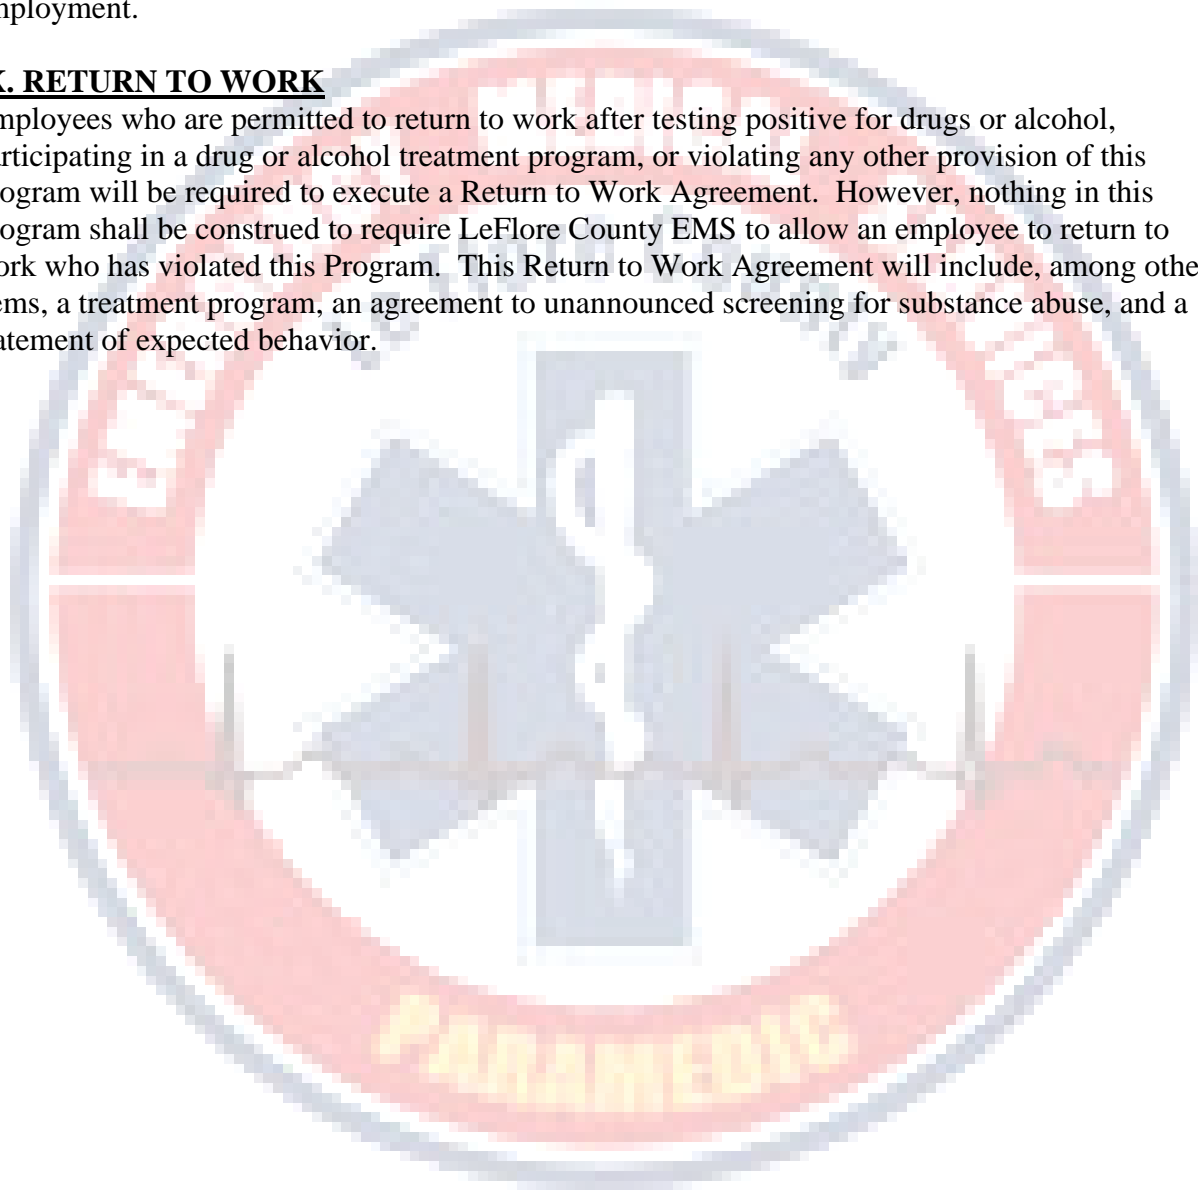

I. Refusal To Consent To Search – Refusing to consent to a search or inspection conducted pursuant to the provisions of this or other LeFlore County EMS policies is prohibited and will

normally result in disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation.

J. Tampering – In the event that it is determined that a sample has been diluted or otherwise tampered with, the subject employee may be, depending upon the circumstances, subject to disciplinary action, up to and including discharge, and such discharge will be considered misconduct for purposes of unemployment compensation. In the event that it is determined that an applicant's sample has been diluted or otherwise tampered with, the applicant may be refused employment.

IX. RETURN TO WORK

Employees who are permitted to return to work after testing positive for drugs or alcohol, participating in a drug or alcohol treatment program, or violating any other provision of this Program will be required to execute a Return to Work Agreement. However, nothing in this Program shall be construed to require LeFlore County EMS to allow an employee to return to work who has violated this Program. This Return to Work Agreement will include, among other items, a treatment program, an agreement to unannounced screening for substance abuse, and a statement of expected behavior.

1. The maximum hours allowed to cash out during the buyback at any one time cannot exceed 50 hours for field staff and 40 hours for office staff.

Background Checks

Purpose: To follow state and federal laws, and to ensure the highest degree of safety for our personnel and patients by adequately screening the background of our personnel.

Policy: EMS of LeFlore County shall perform all necessary background checks, including criminal history, child or elder abuse history, driving record, and other required background checks prior to any service performed by a potential employee, volunteer or current employee. Each employee or volunteer must satisfactorily complete the background check process prior to performing any services or to continue performing services.

Procedure:

I. Criminal History Record Background Checks.

- a. Each applicant must provide necessary information required for the necessary regional state or federal criminal background check form. Each applicant shall also complete a background check authorization form.
- b. EMS of LeFlore County will submit the necessary federal or state background check form on behalf of each applicant to the relevant state or federal agency. The applicant will ordinarily not be permitted to perform services until the results of the background check are received. EMS of LeFlore County will be responsible for the cost of any necessary federal or state background checks conducted for an applicant under consideration or current employee.
 1. If a criminal history record check indicates that a potential employee or volunteer has been convicted (including a plea of “no contest”) of any crime that is relevant when considering employment, he or she may not be eligible for employment. Additionally, any employee or volunteer who is later convicted of a crime may be subject to immediate termination of employment. (Convictions for offenses will not necessarily preclude employment, but will be considered in making employment decisions based on the relevance of the conviction to the work performed).
 2. If the criminal background check returns with no record of conviction, the applicant may be permitted to perform services and may be hired or allowed to continue employment.
 3. If the criminal background check returns with a record of a conviction that is relevant to preclude employment, the applicant will receive notice that he or she is precluded from employment because of the results of the criminal background check.
- c. Any applicant who does not cooperate with the criminal history records check process will not be considered for employment.

- d. In addition to cooperating with the background check, each applicant shall provide a list of all criminal convictions. Convictions will be considered based on factors that relate to suitability for employment in the position applied for, including the type and severity of the crime, and when the conviction occurred.
- e. EMS of LeFlore County may periodically request that additional criminal background checks occur throughout the term of employment. Full cooperation with such periodic checks is expected, and failure to cooperate will result in discipline.
- f. All personnel have an ongoing obligation to disclose to EMS of LeFlore County any convictions during their employment. Personnel who fail to make such a disclosure will be subject to appropriate discipline.

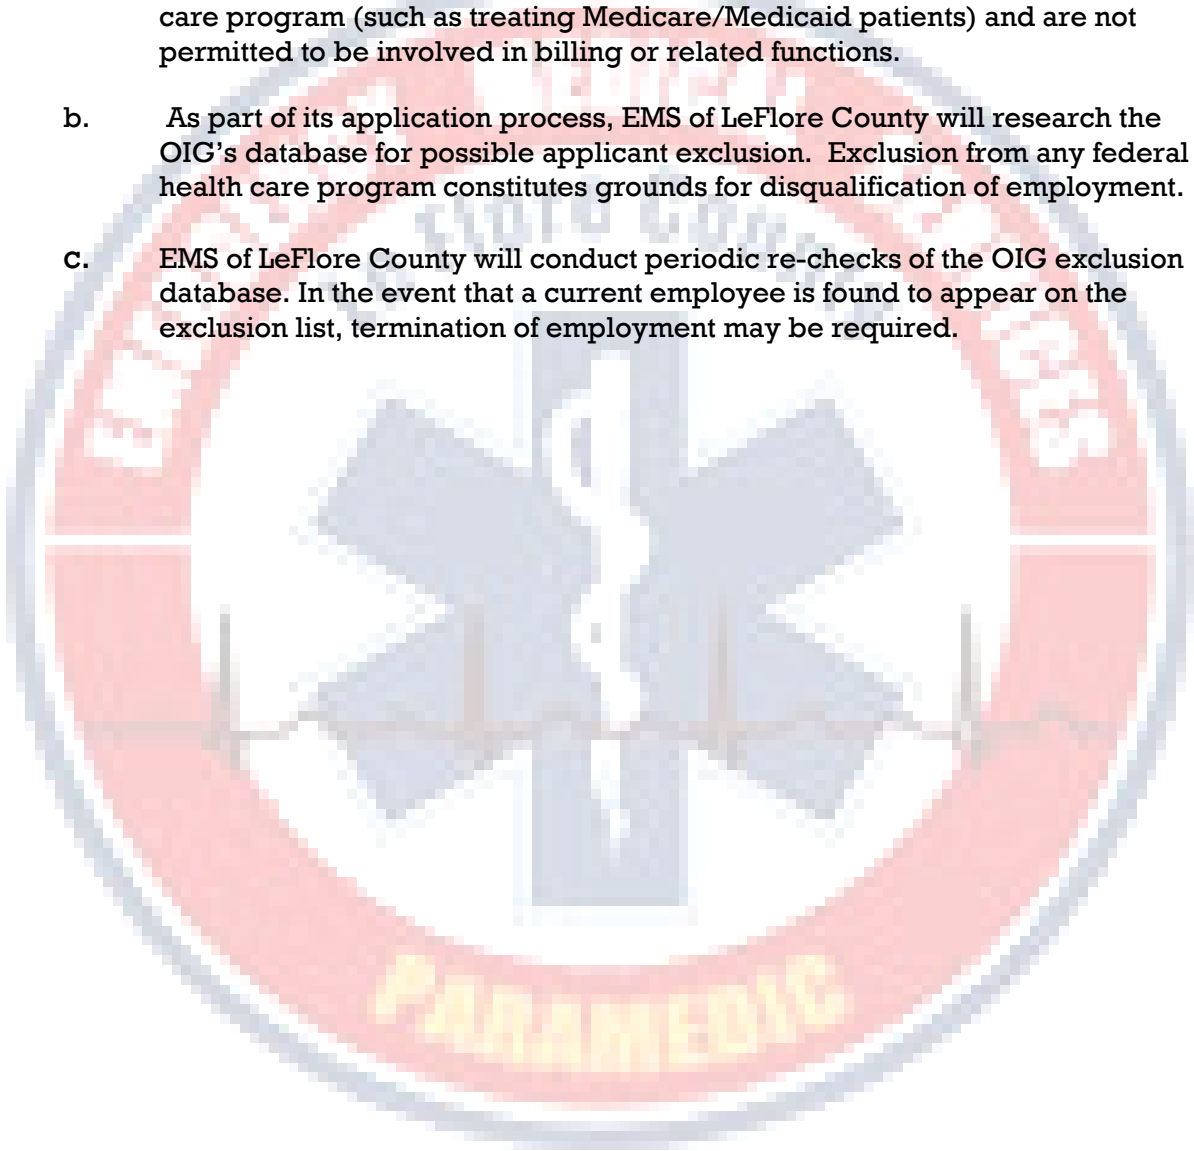

II. Driving Record Background Check for All Personnel Who's Participation Involves the Operation of a Motor Vehicle.

- a. Individuals with a poor driving record may not be permitted to operate Company vehicles, and in some cases, may not be considered for employment. Each applicant is required to submit necessary information to EMS of LeFlore County to enable EMS of LeFlore County to obtain a copy of the driving record from the applicable state agency (e.g., Department of Transportation).
- b. Any applicant who does not cooperate with the driver record check process will not be considered for employment.
- c. At all times during employment, personnel must meet the following criteria while operating Company vehicles:
 - 1. They must have a valid driver's license (where work requires operation of a Company vehicle).
 - 2. They must observe all traffic laws.
 - 3. They must not be addicted to, or under the influence of, alcohol or drugs.
 - 4. They must be free from physical or mental impairments that may adversely affect the person's ability to drive and pose a danger to self or others, if those impairments cannot be reasonably accommodated.
 - 5. If operating Company emergency vehicles, they must have successfully completed an Emergency Vehicle Operator's Course ("EVOC") of instruction within 6 months of hire date.
- d. Any changes in a personnel driving record (such as conviction for speeding, or any conviction for a moving traffic violation) must be reported to a

supervisor immediately. Failure to do so may result in disciplinary action, up to and including termination.

III. Review of OIG Exclusions.

- a. The Department of Health and Human Services, Office of Inspector General (OIG) reports those individuals or organizations that have been excluded from participating in federal health care programs. Those on the excluded list are not permitted to provide services that will be billed to a federal health care program (such as treating Medicare/Medicaid patients) and are not permitted to be involved in billing or related functions.
- b. As part of its application process, EMS of LeFlore County will research the OIG's database for possible applicant exclusion. Exclusion from any federal health care program constitutes grounds for disqualification of employment.
- c. EMS of LeFlore County will conduct periodic re-checks of the OIG exclusion database. In the event that a current employee is found to appear on the exclusion list, termination of employment may be required.

Additional time may not be guaranteed if coverage cannot be found for the additional time above and beyond the above listed bereavement leave.
- d. A memorial pamphlet may be required.

Demand Truck Incentive

Purpose: The purpose of offering an incentive for a demand truck is to get employees to help assist us with transfers or call volume from time to time when needed. Sometimes we get more transfer or 911 requests than we can safely and responsibly accommodate, causing delays and call holds/bottlenecking. By offering an incentive and bringing in additional staff, it helps relieve stress off the other units in the system, it helps the hospital by getting the patient transferred out, and it helps the patient by getting them to their destination quicker.

This policy is not intended, *but not prohibited*, from being used for emergent transfers unless a transfer/demand truck can be readied and in service before a regular duty truck can accommodate the transfer/call request. The decision to use this policy for a transfer should not unnecessarily delay a transfer while waiting on staff to agree to come in, arrive, prep the truck, go into service, and respond to the transfer request. When possible, leadership staff should try to acquire a crew to be “on-call” prior to a transfer request in order for this policy to be as effective as possible.

Leadership staff should make the best judgement calls while utilizing this policy. It is not recommended for this policy to be used in routine transfer decision making but may be utilized as needed to help maintain ambulance coverage within county and to help relieve field staff during high call volume. It should be used as a compliment to normal services, when we have an increase in volume and/or excessive transfer requests.

This policy can be used to call in an additional staff member to drive for a fatigued staff member if that need arises.

It is not recommended, *but not prohibited*, to transport out of county residents from out of county facilities when these patients are being transporting to out of county destinations, without checking insurance status.

The rates should be based off of our Transfer Truck Incentive Rate Spreadsheet, which is subject to change as insurance rates and our rates change. Rates are subject to change at the discretion of the EMS Director as fees, charges, or rates change over time. Demand truck incentive is available for staff that agrees to come in and the call is assigned 2 hours prior to shift and will be paid out as ½ the incentive rate listed on the Transfer Truck Incentive Rate Spreadsheet. Any staff that agrees to come in and the call is assigned prior to 2.25 hours before shift change is available for the full incentive rate listed on the Transfer Truck Incentive Rate Spread Sheet.

Emergency Leave Request

Purpose: To accommodate personnel who desire a leave of absence to assist with relief efforts related to local, state, and federal emergencies or disasters, when requested by appropriate officials and/or emergency management agencies.

Policy: EMS of LeFlore County will accommodate personnel with legitimate urgent or emergent business that requires them to miss work for extended periods of time to the fullest extent possible, as long as the request may be granted without compromising operational needs.

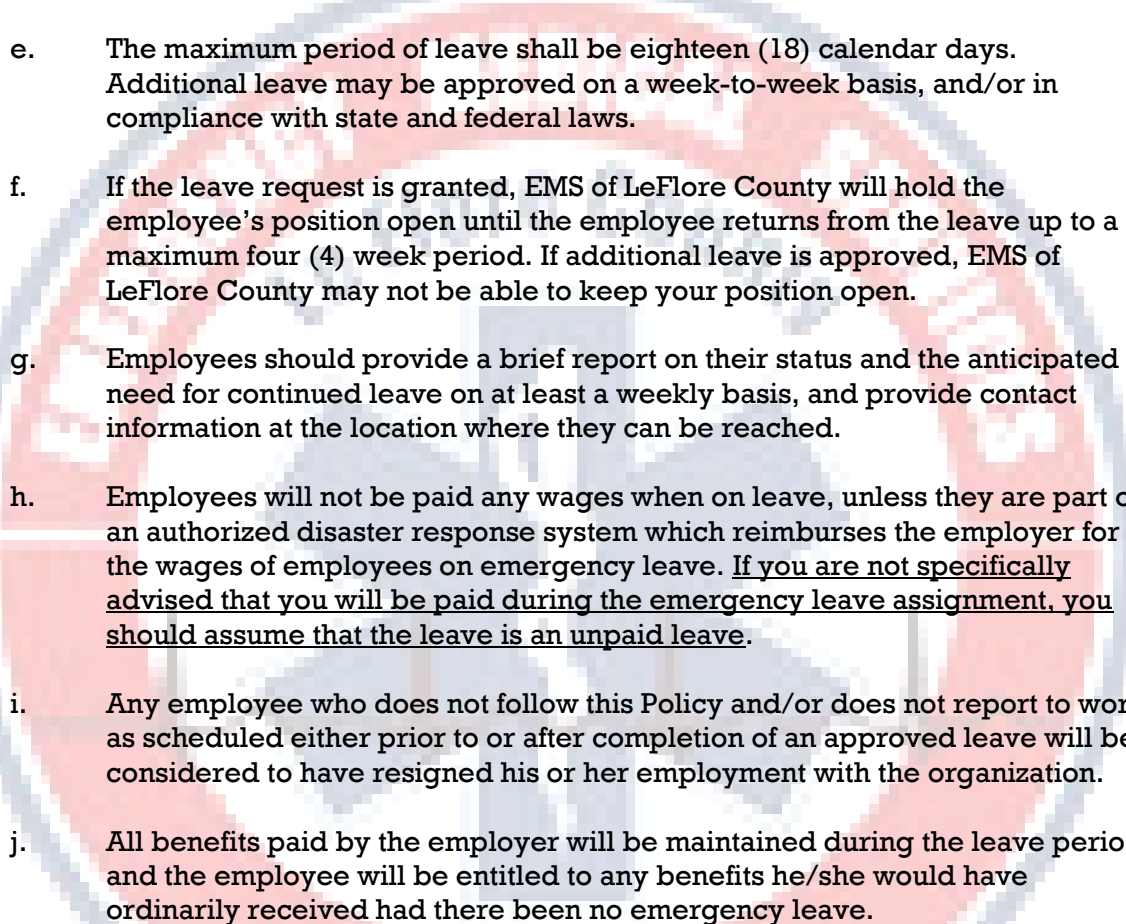

Procedure:

I. Background.

- a. EMS of LeFlore County typically asks its employees to provide advance notice when requesting the use of sick time, vacation time, personal time, or paid time off.
- b. EMS of LeFlore County recognizes that there are times when an emergency arises and adequate advance notice cannot be given. This is especially applicable to persons who participate as part of emergency response teams ready to respond to any state or federal natural disaster. EMS of LeFlore County commends employees for participating in such programs, and does not want to hinder your involvement or otherwise adversely affect your employment status as a result of that involvement.
- c. At the same time, since EMS of LeFlore County is itself an emergency service organization, we need to maintain adequate staffing at all times. We must have sufficient staff to meet our obligations to the public. Therefore, we may only grant emergency leave requests to the extent we can adequately maintain staff coverage here. In other words, not all leave requests may be honored if doing so may compromise our operations.

II. Approval Process.

- a. When an employee has a legitimate emergency situation that he or she knows will require an extended period of absence (other than military leave, family medical leave, or bereavement leave, which is covered in other policies), you should immediately discuss the need with your supervisor. Standard advance notice for leaves of absence will not be required.
- b. Where available, an employee may elect to use sick, personal, vacation, or paid time off that has been accumulated. Otherwise, the leave will be unpaid. Upon requesting the leave, you shall notify your supervisor of the desire to use any accumulated leave time.

- 
- c. The employee requesting emergency leave should submit verification of the need for the leave with the request for the leave. (Example: documentation from the emergency management agency authorizing the employee's participation).
 - d. Leave requests will be considered on a first come, first served basis and with consideration to the need to have you remain at the Company. Leaves will only be granted if management concludes that adequate staffing can be maintained for day-to-day operations.
 - e. The maximum period of leave shall be eighteen (18) calendar days. Additional leave may be approved on a week-to-week basis, and/or in compliance with state and federal laws.
 - f. If the leave request is granted, EMS of LeFlore County will hold the employee's position open until the employee returns from the leave up to a maximum four (4) week period. If additional leave is approved, EMS of LeFlore County may not be able to keep your position open.
 - g. Employees should provide a brief report on their status and the anticipated need for continued leave on at least a weekly basis, and provide contact information at the location where they can be reached.
 - h. Employees will not be paid any wages when on leave, unless they are part of an authorized disaster response system which reimburses the employer for the wages of employees on emergency leave. If you are not specifically advised that you will be paid during the emergency leave assignment, you should assume that the leave is an unpaid leave.
 - i. Any employee who does not follow this Policy and/or does not report to work as scheduled either prior to or after completion of an approved leave will be considered to have resigned his or her employment with the organization.
 - j. All benefits paid by the employer will be maintained during the leave period, and the employee will be entitled to any benefits he/she would have ordinarily received had there been no emergency leave.

Family Medical Leave Act (FMLA)

Purpose: To allow employees a leave of absence for certain family and medical related issues.

Policy: The Family and Medical Leave Act (FMLA) entitles eligible employees of covered employers to take unpaid, job-protected leave for specified family and medical reasons.

COVERED EMPLOYERS: The FMLA only applies to employers that meet certain criteria. A covered employer is a:

- Private-sector employer, with 50 or more employees in 20 or more workweeks in the current or preceding calendar year, including a joint employer or successor in interest to a covered employer.
- Any public agency, including a local, state, or Federal government agency, regardless of the number of employees it employs; or
- Public or private elementary or secondary school, regardless of the number of employees it employs.

Procedure:

I. Eligibility for Medical Leave.

Only eligible employees are entitled to take FMLA leave. An eligible employee is one who:

- Works for a covered employer;
- Has worked for the employer for at least 12 months;
- Has at least 1,250 hours of service for the employer during the 12 month period immediately preceding the leave*; and
- Works at a location where the employer has at least 50 employees within 75 miles.

** Special hours of service eligibility requirements apply to airline flight crew employees. See Fact Sheet 28J: Special Rules for Airline Flight Crew Employees under the Family and Medical Leave Act.*

The 12 months of employment do not have to be consecutive. That means any time previously worked for the same employer (including seasonal work) could, in most cases, be used to meet the 12-month requirement. If the employee has a break in service that lasted seven years or more, the time worked prior to the break will not count unless the break is due to service covered by the Uniformed Services Employment and Reemployment Rights Act (USERRA), or there is a written agreement, including a collective bargaining agreement, outlining the employer's intention to rehire the employee after the break in service. See "FMLA Special Rules for Returning Reservists"

II. Process for Taking Leave.

- a. Eligible employees may take up to 12 workweeks of leave in a 12-month period for one or more of the following reasons provided they fill out proper paperwork and fulfill all requirements:
- The birth of a son or daughter or placement of a son or daughter with the employee for adoption or foster care;
 - To care for a spouse, son, daughter, or parent who has a serious health condition;
 - For a serious health condition that makes the employee unable to perform the essential functions of his or her job; or
 - For any qualifying exigency arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.

An eligible employee may also take up to 26 workweeks of leave during a "single 12-month period" to care for a covered servicemember with a serious injury or illness, when the employee is the spouse, son, daughter, parent, or next of kin of the servicemember. The "single 12-month period" for military caregiver leave is different from the 12-month period used for other FMLA leave reasons. See Fact Sheets 28F: Qualifying Reasons under the FMLA and 28M: The Military Family Leave Provisions under the FMLA. Under some circumstances, employees may take FMLA leave on an intermittent or reduced schedule basis. That means an employee may take leave in separate blocks of time or by reducing the time he or she works each day or week for a single qualifying reason. When leave is needed for planned medical treatment, the employee must make a reasonable effort to schedule treatment so as not to unduly disrupt the employer's operations. If FMLA leave is for the birth, adoption, or foster placement of a child, use of intermittent or reduced schedule leave requires the employer's approval. Under certain conditions, employees may choose, or employers may require employees, to "substitute" (run concurrently) accrued paid leave, such as sick or vacation leave, to cover some or all of the FMLA leave period. An employee's ability to substitute accrued paid leave is determined by the terms and conditions of the employer's normal leave policy.

The Family and Medical Leave Act (FMLA) entitles an eligible employee to take up to 12 workweeks of job-protected unpaid leave for the birth or placement of a son or daughter, to bond with a newborn or newly placed son or daughter, or to care for a son or daughter with a serious health condition.

FMLA definition of "son or daughter"

The FMLA defines a "son or daughter" as a biological, adopted, or foster child, a stepchild, a legal ward, or a child of a person standing in loco parentis. See 29 USC 2611(12). The broad definition of "son or daughter" is intended to reflect the reality that many children in the United States live with a parent other than their biological father and mother. Under the FMLA, an employee who actually has day-to-day responsibility for caring for a child may be entitled to leave even if the employee does not have a biological or legal relationship to the

child. The definition of “son or daughter” is limited to children under the age of 18 or 18 years of age or older and incapable of self-care because of a mental or physical disability. See 29 USC 2612(12). The FMLA military leave provisions have specific definitions of son or daughter that are unique to those provisions.

Other conditions or situations that may be eligible for FMLA are listed on the U.S. Department of Labor website at the following address:
<https://www.dol.gov/agencies/whd/fmla/factsheets>.

b. The employee must provide proper notice of the need for leave.

Employees must comply with their employer’s usual and customary requirements for requesting leave and provide enough information for their employer to reasonably determine whether the FMLA may apply to the leave request.

- Employees generally must request leave 30 days in advance when the need for leave is foreseeable.
- When the need for leave is foreseeable less than 30 days in advance or is unforeseeable, employees must provide notice as soon as possible and practicable under the circumstances.
- When an employee seeks leave for a FMLA-qualifying reason for the first time, the employee need not expressly assert FMLA rights or even mention the FMLA. If an employee later requests additional leave for the same qualifying condition, the employee must specifically reference either the qualifying reason for leave or the need for FMLA leave. See Fact Sheet 28E: Employee Notice Requirements under the FMLA.

Covered employers must:

- (1) Post a notice explaining rights and responsibilities under the FMLA. Covered employers may be subject to a civil money penalty for willful failure to post. For current penalty amounts, see www.dol.gov/whd/fmla/applicable_laws.htm;
- (2) Include information about the FMLA in their employee handbooks or provide information to new employees upon hire;
- (3) When an employee requests FMLA leave or the employer acquires knowledge that leave may be for a FMLA-qualifying reason, provide the employee with notice concerning his or her eligibility for FMLA leave and his or her rights and responsibilities under the FMLA; and
- (4) Notify employees whether leave is designated as FMLA leave and the amount of leave that will be deducted from the employee’s FMLA entitlement.

When an employee requests FMLA leave due to his or her own serious health condition or a covered family member’s serious health condition, the employer may require certification in support of the leave from a health care provider. An employer may also require second or

third medical opinions (at the employer's expense) and periodic recertification of a serious health condition. See Fact Sheet 28G: Certification of a Serious Health Condition under the FMLA.

III. Terms and Conditions of Leave.

a. Employees on approved Family/Medical leave must provide a return-to-work certification.

1. If the employee's leave is because of his or her own serious health condition, except in the case of intermittent leave, the employee is required to provide medical certification that he or she is fit to resume work.

2. Employees failing to provide the Return-to-Work Medical Certification Form will not be permitted to resume work until the form is provided.

b. Employees are not permitted to be employed elsewhere while on approved Family/Medical leave. An employee who takes another job for another employer while on Family/Medical leave or any other authorized leave of absence with EMS of LeFlore County is subject to discipline, up to and including termination.

FITNESS-FOR-DUTY

The employer may have a policy or practice that requires employees in similar job positions who take leave for similar health conditions to provide a return to work, or "fitness-for-duty," certification from the employee's health care provider showing that the employee is able to resume work. The employer may request a fitness-for-duty certification *only* with regard to the particular health condition that caused the employee's need for FMLA leave. If the employer will require a fitness-for-duty certification, it must provide notice of that requirement and whether the certification must address the employee's ability to perform the essential functions of his or her job with the FMLA designation notice.

In general, a fitness-for-duty certification may not be required for each absence taken on an intermittent or reduced leave schedule. However, if the employer has a reasonable belief that the employee's return to work presents a significant risk of harm to the employee or to others, the employer may require a fitness-for-duty certification up to once every 30 days.

As long as the employer has provided the required notice regarding any fitness-for-duty certification requirement, the employee's return to work may be delayed until the fitness-for-duty certification is provided. An employer may contact an employee's health care provider to clarify or authenticate a fitness-for-duty certification, but cannot delay the employee's return to work while making that contact. An employer may not require second or third opinions for a fitness-for-duty certification. The employee is responsible for paying any cost of obtaining the fitness-for-duty certification. If State or local law or collective bargaining agreement governs an employee's return to work, those provisions must be applied.

Benefits Other than Health Insurance

An employee's rights to benefits other than group health insurance while on FMLA leave depend upon the employer's established policies. Any benefits that would be maintained while the employee is on other forms of leave, including paid leave if the employee substitutes accrued paid leave during FMLA leave, must be maintained while the employee is on FMLA leave. FS 28A 2 Substitution of Paid Leave FMLA entitles eligible employees to take unpaid leave. Under certain conditions, employees may "substitute," or run at the same time as their FMLA leave, accrued paid leave (such as sick or vacation leave) to cover some or all of the period of FMLA leave. An employer may also require employees to substitute accrued paid leave for unpaid FMLA leave even when the employee has not elected to do so. In order to substitute accrued paid leave, the employee must follow the employer's normal rules for the use of that type of leave, such as submitting a leave form or providing advance notice. If an employee does not meet the requirements to take paid leave under the employer's normal leave policies, the employee may still take unpaid FMLA leave. Paid leave taken for reasons that do not qualify for FMLA leave does not count against the employee's FMLA leave entitlement.

PROTECTIONS UPON RETURN FROM FMLA LEAVE (JOB RESTORATION):

When an employee returns from FMLA leave, he or she must be restored to the same job or to an "equivalent job". The employee is not guaranteed the actual job held prior to the leave. An equivalent job means a job that is virtually identical to the original job in terms of pay, benefits, and other employment terms and conditions (including shift and location). Equivalent pay includes the same or equivalent pay premiums, such as a shift differential, and the same opportunity for overtime as the job held prior to FMLA leave. An employee is entitled to any unconditional pay increases that occurred while he or she was on FMLA leave, such as cost of living increases. Pay increases conditioned upon seniority, length of service, or work performed must be granted only if employees taking the same type of leave for non-FMLA reasons receive the increases. Equivalent pay includes any unconditional bonuses or payments. If an employee does not meet a specific goal for achieving a bonus because of taking FMLA leave, however, the employer must only pay the bonus if employees taking the same type of leave for non-FMLA reasons receive it. For example, if an employee is substituting accrued paid sick leave for unpaid FMLA leave and other employees on paid sick leave are entitled to the bonus, then the employee taking FMLA-protected leave concurrently with sick leave must also receive the bonus. All benefits an employee had accrued prior to a period of FMLA leave must be restored to the employee when he or she returns from leave. An employee returning from FMLA leave cannot be required to requalify for any benefits the employee enjoyed before the leave began.

LIMITATIONS TO FMLA PROTECTIONS:

An employee on FMLA leave is not protected from actions that would have affected him or her if the employee was not on FMLA leave. For example, if a shift has been eliminated, or overtime has been decreased, an employee would not be entitled to return to work that shift

or the original overtime hours. If an employee is laid off during the period of FMLA leave, the employer must be able to show that the employee would not have been employed at the time of reinstatement. An employer may also deny restoration to a “key” employee under certain circumstances. A key employee is a salaried, FMLA-eligible employee who is among the highest-paid 10 percent of all of the employer’s employees within 75 miles. To deny restoration to a key employee, an employer must have determined that substantial and grievous economic injury to its operations would result from the restoration, must have provided notice to the employee that he or she is a key employee and that restoration will be denied, and must provide the employee a reasonable opportunity to return to work.

IV. Impact of Leave on Medical and Other Benefits.

1. If paid leave is substituted for unpaid Family/Medical leave, EMS of LeFlore County may deduct the employee’s portion of the health premium as a regular payroll deduction.

2. If the leave is unpaid, the employee must pay his/her portion of the premium by issuing a check to EMS of LeFlore County no later than the 1st day of each month the employee is on approved leave.

3. The employee’s elective benefits coverage will cease the 1st of the month that the employee’s part of premium is not received.

A. If the payment is not received, EMS of LeFlore County will call the employee indicating the premium is due.

B. If EMS of LeFlore County does not receive the co-payment from the employee within 2 days after the call, the employee’s coverage will cease at the end of the month that full payment was received.

C. If the employee elects not to return to work for at least 30 calendar days at the end of the leave period, the employee will be required to reimburse EMS of LeFlore County for the cost of the health benefit premiums paid by EMS of LeFlore County for maintaining coverage during the employee’s unpaid leave, unless the employee is unable to return to work due to the employee’s serious health condition, or other circumstances beyond the employee’s control.

V. Misrepresentation of Leave.

a. If it is discovered that a leave of absence granted for a specific purpose is not being used for that purpose, EMS of LeFlore County may cancel the leave and direct the employee to return to work.

b. An employee who fraudulently obtains leave is not protected by the FMLA’s job restoration or maintenance of health benefits provisions.

c. Any employee who misrepresents the purpose for which leave is taken may be subject to disciplinary action, up to and including termination.

VI. Return to work.

Upon return from FMLA leave, an employee must be restored to his or her original job or to an equivalent job with equivalent pay, benefits, and other terms and conditions of employment. An employee's use of FMLA leave cannot be counted against the employee under a "no-fault" attendance policy. Employers are also required to continue group health insurance coverage for an employee on FMLA leave under the same terms and conditions as if the employee had not taken leave.

Salaried executive, administrative, and professional employees of covered employers who meet the Fair Labor Standards Act (FLSA) criteria for exemption from minimum wage and overtime under the FLSA regulations, 29 CFR Part 541, do not lose their FLSA-exempt status by using any unpaid FMLA leave. This special exception to the "salary basis" requirements for FLSA's exemption extends only to an eligible employee's use of FMLA leave.

VII. Failure to Return to Work.

- a. An employee who fails to return to work at the expiration or cancellation of an approved Family/Medical leave, without satisfactory explanation is considered to have resigned from his or her position with EMS of LeFlore County.

ENFORCEMENT It is unlawful for any employer to interfere with, restrain, or deny the exercise of or the attempt to exercise any right provided by the FMLA. It is also unlawful for an employer to discharge or discriminate against any individual for opposing any practice, or because of involvement in any 4 proceeding, related to the FMLA. See Fact Sheet 77B . The Wage and Hour Division is responsible for administering and enforcing the FMLA for most employees. Most federal and certain congressional employees are also covered by the law but are subject to the jurisdiction of the U.S. Office of Personnel Management or Congress. If you believe that your rights under the FMLA have been violated, you may file a complaint with the Wage and Hour Division.

U.S. Department of Labor Wage and Hour Division Notice

Fact Sheet #28: The Family and Medical Leave Act

The Family and Medical Leave Act (FMLA) entitles eligible employees of covered employers to take unpaid, job-protected leave for specified family and medical reasons. This fact sheet provides general information about which employers are covered by the FMLA, when employees are eligible and entitled to take FMLA leave, and what rules apply when employees take FMLA leave.

COVERED EMPLOYERS

The FMLA only applies to employers that meet certain criteria. A covered employer is a:

- Private-sector employer, with 50 or more employees in 20 or more workweeks in the current or preceding calendar year, including a joint employer or successor in interest to a covered employer;

• Public agency, including a local, state, or Federal government agency, regardless of the number of employees it employs; or • Public or private elementary or secondary school, regardless of the number of employees it employs.

ELIGIBLE EMPLOYEES

Only eligible employees are entitled to take FMLA leave. An eligible employee is one who:

- Works for a covered employer;
- Has worked for the employer for at least 12 months;
- Has at least 1,250 hours of service for the employer during the 12 month period immediately preceding the leave*; and
- Works at a location where the employer has at least 50 employees within 75 miles.

* Special hours of service eligibility requirements apply to airline flight crew employees. See Fact Sheet 28J: Special Rules for Airline Flight Crew Employees under the Family and Medical Leave Act.

The 12 months of employment do not have to be consecutive. That means any time previously worked for the same employer (including seasonal work) could, in most cases, be used to meet the 12-month requirement. If the employee has a break in service that lasted seven years or more, the time worked prior to the break will not count unless the break is due to service covered by the Uniformed Services Employment and Reemployment Rights Act (USERRA), or there is a written agreement, including a collective bargaining agreement, outlining the employer's intention to rehire the employee after the break in service. See "FMLA Special Rules for Returning Reservists".

LEAVE ENTITLEMENT

Eligible employees may take up to 12 workweeks of leave in a 12-month period for one or more of the following reasons:

- The birth of a son or daughter or placement of a son or daughter with the employee for adoption or foster care;
- To care for a spouse, son, daughter, or parent who has a serious health condition;
- For a serious health condition that makes the employee unable to perform the essential functions of his or her job; or
- For any qualifying exigency arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.

An eligible employee may also take up to 26 workweeks of leave during a "single 12-month period" to care for a covered servicemember with a serious injury or illness, when the employee is the spouse, son, daughter, parent, or next of kin of the servicemember. The "single 12-month period" for military caregiver leave is different from the 12-month period used for other FMLA leave reasons. See Fact Sheets 28F: Qualifying Reasons under the FMLA and 28M: The Military Family Leave Provisions under the FMLA.

Under some circumstances, employees may take FMLA leave on an intermittent or reduced schedule basis. That means an employee may take leave in separate blocks of time or by reducing the time he or she works each day or week for a single qualifying reason. When leave is needed for planned medical treatment, the employee must make a reasonable effort to schedule treatment so as not to unduly disrupt the employer's operations. If FMLA leave is for the birth, adoption, or foster placement of a child, use of intermittent or reduced schedule leave requires the employer's approval. An employee's ability to substitute accrued paid leave is determined by the terms and conditions of the employer's normal leave policy.

NOTICE

Employees must comply with their employer's usual and customary requirements for requesting leave and provide enough information for their employer to reasonably determine whether the FMLA may apply to the leave request. Employees generally must request leave 30 days in advance when the need for leave is foreseeable. If an employee later requests additional leave for the same qualifying condition, the employee must specifically reference either the qualifying reason for leave or the need for FMLA leave. See Fact Sheet 28E: Employee Notice Requirements under the FMLA .

Covered employers must:

- (1) Post a notice explaining rights and responsibilities under the FMLA. Covered employers may be subject to a civil money penalty for willful failure to post. For current penalty amounts, see www.dol.gov/whd/fmla/applicable_laws.htm;

- (4) Notify employees whether leave is designated as FMLA leave and the amount of leave that will be deducted from the employee's FMLA entitlement. See Fact Sheet 28D: Employer Notice Requirements under the FMLA.

CERTIFICATION

When an employee requests FMLA leave due to his or her own serious health condition or a covered family member's serious health condition, the employer may require certification in support of the leave from a health care provider. An employer may also require second or third medical opinions (at the employer's expense) and periodic recertification of a serious health condition. See Fact Sheet 28G: Certification of a Serious Health Condition under the FMLA. For information on certification requirements for military family leave, See Fact Sheet 28M(c): Qualifying Exigency Leave under the FMLA; Fact Sheet 28M(a): Military Caregiver Leave for a Current Servicemember under the FMLA; and Fact Sheet 28M(b): Military Caregiver Leave for a Veteran under the FMLA.

JOB RESTORATION AND HEALTH BENEFITS

Upon return from FMLA leave, an employee must be restored to his or her original job or to an equivalent job with equivalent pay, benefits, and other terms and conditions of employment. An employee's use of FMLA leave cannot be counted against the employee under a "no-fault" attendance policy. Employers are also required to continue group health insurance coverage for an employee on FMLA leave under the same terms and conditions as if the employee had not taken leave. See Fact Sheet 28A: Employee Protections under the Family and Medical Leave Act .

OTHER PROVISIONS

Special rules apply to employees of local education agencies. Generally, these rules apply to intermittent or reduced schedule FMLA leave or the taking of FMLA leave near the end of a school term.

Salaried executive, administrative, and professional employees of covered employers who meet the Fair Labor Standards Act (FLSA) criteria for exemption from minimum wage and overtime under the FLSA regulations, 29 CFR Part 541, do not lose their FLSA-exempt status by using any unpaid FMLA leave. This special exception to the “salary basis” requirements for FLSA’s exemption extends only to an eligible employee’s use of FMLA leave.

ENFORCEMENT

It is unlawful for any employer to interfere with, restrain, or deny the exercise of or the attempt to exercise any right provided by the FMLA. Most federal and certain congressional employees are also covered by the law but are subject to the jurisdiction of the U.S. Office of Personnel Management or Congress. If you believe that your rights under the FMLA have been violated, you may file a complaint with the Wage and Hour Division or file a private lawsuit against your employer in court.

Break Time for Nursing Mothers under the FLSA

Purpose: To allow employees who are nursing mothers a reasonable break time to express breastmilk for her nursing child for 1 year after the child's birth each time such employee has need to express the milk.

EMS of Leflore County will provide a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public, which may be used by an employee to express breast milk.

The FLSA requirement of break time for nursing mothers to express breast milk does not preempt State laws that provide greater protections to employees (for example, providing compensated break time, providing break time for exempt employees, or providing break time beyond 1 year after the child's birth).

Time and Location of Breaks:

Employers are required to provide a reasonable amount of break time to express milk as frequently as needed by the nursing mother. The frequency of breaks needed to express milk as well as the duration of each break will likely vary. A bathroom, even if private, is not a permissible location under the Act. The location provided must be functional as a space for expressing breast milk. If the space is not dedicated to the nursing mother's use, it must be available when needed in order to meet the statutory requirement. A space temporarily created or converted into a space for expressing milk or made available when needed by the nursing mother is sufficient provided that the space is shielded from view, and free from any intrusion from co-workers and the public.

Coverage and Compensation

Only employees who are not exempt from section 7, which includes the FLSA's overtime pay requirements, are entitled to breaks to express milk. While employers are not required under the FLSA to provide breaks to nursing mothers who are exempt from the requirements of Section 7, they may be obligated to provide such breaks under State laws. FS 73 Employers with fewer than 50 employees are not subject to the FLSA break time requirement if compliance with the provision would impose an undue hardship. Whether compliance would be an undue hardship is determined by looking at the difficulty or expense of compliance for a specific employer in comparison to the size, financial resources, nature, and structure of the employer's business. All employees who work for the covered employer, regardless of work site, are counted when determining whether this exemption may apply. Employers are not required under the FLSA to compensate nursing mothers for breaks taken for the purpose of expressing milk. However, where employers already provide compensated breaks, an employee who uses that break time to express milk must be compensated in the same way that other employees are compensated for break time. In addition, the FLSA's general requirement that the employee must be completely relieved from duty or else the time must be compensated as work time applies.

FLSA Prohibitions on Retaliation

Section 15(a)(3) of the FLSA states that it is a violation for any person to “discharge or in any other manner discriminate against any employee because such employee has filed any complaint or instituted or caused to be instituted any proceeding under or related to this Act, or has testified or is about to testify in any such proceeding, or has served or is about to serve on an industry committee.” Employees are protected regardless of whether the complaint is made orally or in writing. Complaints made to the Wage and Hour Division are protected, and most courts have ruled that internal complaints to an employer are also protected. Any employee who is “discharged or in any other manner discriminated against” because, for instance, he or she has filed a complaint or cooperated in an investigation, may file a retaliation complaint with the Wage and Hour Division or may file a private cause of action seeking appropriate remedies including, but not limited to, employment, reinstatement, lost wages and an additional equal amount as liquidated damages.

II. Requesting Military Leave.

 4. In cases where an employee was hospitalized or is recovering from a military-related illness or injury, he or she shall be entitled to request reinstatement after recovery has occurred, provided that the recovery is not longer than two years.

- b. As a general rule, EMS of LeFlore County will not employ relatives of existing employees. In some situations, relatives may be employed if the employee is not directly supervised by the relative or if management determines the potential for conflict is minimal.

 1. At the end of the initial Introductory Period.
 2. During the annual review period.
 3. At the end of a new Introductory Period following a job transfer or reassignment to new duties.
 4. Following a significant change in job performance, for which an employee is placed on probation.
- b. Supervisors will review job descriptions with all employees at each annual performance appraisal date. At that meeting:
 1. An action plan will be established based for future appraisals.
 2. Strengths and weaknesses, and areas that are in need of improvement will be discussed.
 3. An evaluation will be based upon actions as they relate to job duties, as well as personnel, patient, and outsider interactions.
 4. A review of any disciplinary actions, and appropriate course of action required in light of any disciplinary history may occur.

- c. Comments or disagreements with performance should be discussed openly during the review session. If an employee is not satisfied with a supervisor's explanation of a performance appraisal, he or she may review the objection with the next highest ranking official.
- d. Periodic informal review may also occur. Supervisors may provide regular verbal feedback to staff to continually monitor performance and to serve as a resource for the staff member.

III. Merit Increases.

- a. Depending on business conditions, employees may be eligible for a merit pay increase on the yearly anniversary of the employee's date of the start of employment.
- b. Merit pay increases, if given, will be based on job performance and workplace conduct during the previous year, as determined at the annual review.
- c. Employees are not guaranteed an annual merit pay increase, as increases may not be given on a recurring basis due to financial conditions and other factors.

Progressive Discipline

Purpose: To ensure that staff members adhere to all essential policies and standards of performance and behavior established by EMS of LeFlore County, including the Code of Conduct, and to initiate corrective action when those standards are not met.

Policy: EMS of LeFlore County will follow a progressive discipline approach whenever possible and as appropriate based upon the severity of the offense, and other important factors to help ensure compliance with established policies and standards.

Procedure:

I. Background.

a. Progressive Disciplinary Model.

1. EMS of LeFlore County follows a progressive discipline model. It is a structured, but flexible disciplinary plan, whereby discipline will be handled in phases, and the severity of the discipline will generally increase based upon the severity or frequency of the violation.
2. EMS of LeFlore County will use this model where appropriate and necessary, but certain violations may warrant immediate and more serious action, based upon the nature or degree of the violation and other factors.
3. Progressive discipline is accomplished through four levels of sanctions for disciplinary violations - verbal warning, written warning, suspension, and termination. EMS of LeFlore County will attempt to follow this progression whenever possible, but it may skip a step or move to more serious discipline in its discretion, depending on the particular circumstances.
4. An overlying theme to administration of discipline is to ensure thorough review of each situation and to make an objective determination. Staff members subject to discipline will have an opportunity to be heard and to present their "side of the story" whenever possible, so that "due process" is provided.

II. Standards.

- a. Depending upon the nature and severity of the offense, interviews and statements of persons involved in the incident may be required.
- b. A supervisor or other member of management will initiate corrective counseling and impose appropriate discipline if necessary after an investigation of the incident has occurred.

- c. All personnel involved in any incident investigation are expected to fully cooperate with any such investigation.
- d. Corrective counseling will be used whenever possible to correct work performance and improper conduct, or in situations where policies such as our Privacy and Compliance Policies have been violated.
- e. Disciplinary action will be imposed only when necessary, depending on the facts and circumstances of the incident. At no time will any disciplinary action be based upon race, color, national origin, ancestry, religion, sex, age, disability, political belief, military service, or any other protected class.

III. Levels of Violations.

- a. EMS of LeFlore County Progressive Discipline Model is structured as follows:
 1. Verbal warning. Note is placed in the personnel file as a reminder only of the date of violation. Verbal warnings are cleared after one (1) year.
 2. Written warning. Written documentation shall be placed in the personnel file. Written warnings are cleared after two (2) years unless additional write ups occur for the same offense.
 3. Suspension without pay. Written documentation of the nature of the offense and the starting date of the suspension is placed in the personnel file.
 4. Termination from employment or membership.
- b. Minor violations will typically begin with a verbal warning, while more serious violations can result in suspension or in rare cases, termination. At all times, because of the at-will nature of employment, EMS of LeFlore County reserves the right to impose any level of discipline upon any employee for any type of violation as is necessary to maintain operational integrity.

III. Types of Violations.

- a. The following are examples of the types of conduct that can result in discipline, as imposed at the discretion of a supervisor or other member of management, based upon the degree and frequency of the offense.
 1. Violations of any Policy contained within this Handbook, including but not limited to:
 - Repeated absence or tardiness without prior notice.
 - Failure to maintain required personnel records.
 - Rules infractions.
 - Damage or loss of Company property due to carelessness.

- Inappropriate language or conduct toward other personnel, patients, healthcare facility staff, guests or vendors, in violation of the “Sexual and Other Harassment” Policy and Non-Discrimination Commitment.

 - Violation of policies pertaining to patient privacy.
 - Unsatisfactory performance or conduct.
 - Falsification of timekeeping or reimbursement records.

 - Violation of the “Workplace Violence” Policy.
 - Theft or other misappropriation of Company property.
2. Any patient care related offense, or other violation related to licensure, certification, or term of employment, based upon EMS of LeFlore County or State EMS Agency requirements.

IV. Documentation.

- a. All written warnings, investigations, and other documentation related to an incident investigation shall be retained in the staff member’s personnel file.

V. Non-work Activities.

- a. Generally, EMS of LeFlore County will not initiate corrective counseling or impose discipline for actions and events that occur on non-work time. However, to the extent that unacceptable off duty conduct affects EMS of LeFlore County, or your ability to perform job duties, appropriate discipline may be imposed.
- b. A supervisor or appropriate member of management shall have the discretion to impose appropriate discipline in situations where off duty activities adversely affect EMS of LeFlore County, its reputation, its obligations, or your ability to perform your job.

Rest Periods

Purpose: To maintain high levels of quality patient care by ensuring that personnel are not overworked and are able to function effectively.

Policy: EMS of LeFlore County requires that all employees report to duty well rested, and able to meet the needs of the public and patients that we serve for the duration of the shift.

Procedure:

I. Standards.

- a. Because we provide emergency patient care, keen judgment, skill, and safe performance of job duties are required at all times. To do this, all personnel must report to work well-rested at the start of his or her scheduled shift.
- b. To the extent that a second job prohibits personnel from being able to perform their duties for EMS of LeFlore County, because insufficient rest affects the quality of care, the staff member may be asked to go home, and be will not receive any pay for the remainder of the shift. Likewise, in situations where personnel appear overtired or otherwise exhausted due to insufficient rest, for any reason whatsoever, and where patient care may be affected, the personnel may be requested to return home, and be denied pay for the shift.
- c. In addition to other employment, personnel are asked to schedule other personal outside activities appropriately, so as to be well rested and alert when reporting for duty.
- d. Insufficient rest and other symptoms of exhaustion can affect the ability to perform job duties, and jeopardize the well being of patients and co-workers. In the interest of maintaining a safe work environment, and our commitment to the highest level of patient care, we expect everyone's cooperation with this Policy.
- f. A staff member who routinely arrives to work not well rested, or who shows signs of exhaustion such that patient care may be jeopardized may also face disciplinary action, up to and including termination.
- g. In the event that a crew becomes exhausted during a shift, that crew may contact their supervisor and request an uninterrupted rest period. Crews are expected to complete tasks assigned throughout their shift, but management acknowledges that there are times that a crew can become overextended and further operations may endanger the crew or the public. Supervisors have the authority to place a unit out of service for set periods of time in order to give the crew uninterrupted rest. Crews found to be abusing this privilege will be subject to disciplinary actions.

- a. EMS of LeFlore County carries Workers' Compensation Insurance to provide for payment of medical expenses and lost wages in the event of a work related accident or illness. To qualify, the injury must occur within the course and scope of employment.
- b. The amount of benefits payable (medical expenses, lost wages, etc.) and the duration of payment depend on (among other things) the nature and severity of your injury or illness, amount of lost work time, and ability to physically perform essential job functions. All medical and wage loss benefits will be provided in accordance with state and federal laws.
- c. Failure to immediately report work related injuries may have a negative effect of the ability to receive prompt Workers' Compensation benefits.
- d. Workers' Compensation benefits will apply only to injuries sustained on-duty, and under no circumstances will apply to injuries sustained by voluntary, non-work activities.

- e. Workers' Compensation benefits have a seven (7) days waiting period, first day starts day after injury. If injury lasts more than twenty-one (21) days, workers' compensation will go back and pay first seven (7) days.
- f. When you qualify for Workers' Compensation lost wage benefits, you will receive reimbursement at the standard Workers' Compensation reimbursement rate as paid by the insurance carrier.

 6. Take steps to prevent the hazard, and prevent future occurrence of the event that caused the harm. Where necessary, notification of possible contamination and/or infection should be made to appropriate state agencies.
 7. In the event that training or new policy is required, based upon the accident and injury, the supervisor will coordinate with relevant EMS of LeFlore County staff to ensure prompt action to prevent future occurrence.
- c. In cases where work must be missed, the treating medical professional or physician must authorize the absence. Your treating physician should provide a note indicating the extent of the injury, the treatment date(s), the amount of time that must be taken off work, an anticipated return date (if any), and any restrictions upon your return to work, based on a review of the essential functions of the job.
 - d. Modified or light duty assignments may be available where a physician indicates that you are able to perform some, but not all work duties. Whether light duties will be available will have to be made on a case by case basis, depending upon the work functions that can be performed, the “light duty” that may be available, and the recommendations of the treating physician.
 - e. Any and all Workers’ Compensation claims, benefits, and injuries are subject to investigation by your supervisor, as well as insurance adjusters, and other relevant parties. Faking an injury in an attempt to obtain improper Workers’ Compensation benefits is a crime.
 - f. All decisions regarding liability, insurance coverage, and payments will be made by the insurance carrier, and will be subject to insurance review and appeal processes. Based upon the degree of the injury you may become eligible for short or long term disability coverage.
 - h. The Company will not retaliate against any staff member who makes a good faith report of a work-related injury.

Scheduling

Purpose: To ensure adequate emergency response and ambulance service 24 hours a day, 7 days a week, 365 days a year with the necessary complement of professional personnel.

Policy: EMS of LeFlore County requires you to arrive on time for your scheduled shift, or to provide for appropriate coverage when you may be unavailable to serve the assigned shift.

Procedure:

I. Standards.

- a. EMS of LeFlore County reserves the right to schedule personnel at any time, or change the schedule in accordance with operational needs and demands.
- b. EMS of LeFlore County will develop a staffing schedule on a monthly basis. Work schedules may be changed from time to time at the discretion of EMS of LeFlore County to meet operational demands, schedule changes, and personal conflicts that may arise among assigned staff. Attempts will be made to notify all personnel of any changes made to a posted schedule. To the greatest extent possible, EMS of LeFlore County will attempt to maintain a flexible and fair schedule, and accommodate requests of personnel.
- c. It is your responsibility to arrive for and complete in full your scheduled shift, unless:
 1. A pre-approved request for time off has occurred:
 - A. All requests for time off shall be made as soon as reasonably possible, preferably prior to the development of the schedule.
 - B. When a conflict in the schedule is noticed, and a scheduled person requires time off, the supervisor must be contacted immediately in order to coordinate adequate coverage.
 2. The scheduled personnel has arranged for coverage with another person subject to the following:
 - A. When arranging coverage with another person, equal "swapping" or trading shall occur within the same 40 hour week. Personnel shall not expect another person to cover part or an entire shift without covering an equal amount of time for that other person.
 - B. A trade that incurs overtime time shall not occur. But, exceptions may be made by a supervisor in extraordinary circumstances where a trade among similar personnel cannot occur and overtime hours may be required.

- C. Shift trades in coverage must be made between persons who are equally certified. For example, a Paramedic cannot trade with an EMT, or vice-versa.
- D. Management must approve any and all trades. Management reserves the right to refuse to permit a swap to the extent that it will pose scheduling or other personnel conflicts. All proposed trades must be submitted in the online scheduling system and approved by both employees and submitted to the supervisor at least 7 days prior to the date of the trade.
- d. From time to time, it may be necessary for personnel to be absent during a scheduled shift. It is the responsibility of the employee to find peer coverage for a shift that is less than 14 days away, but must be done through the online scheduling system and approved.
- e. Because all personnel must be alert and able to perform their job at all times, in order to provide the best possible care to patients, all personnel are expected to report to their scheduled shift well rested, and ready to perform their duties. Personnel that are not well rested, or are physically unable to perform their duties as a result of exhaustion may be sent home, and may be subject to discipline. For additional information concerning the obligation to report to duty well rested, please see the "Reporting to Work Well Rested" Policy.
- f. From time to time, personnel may be required to arrive for a shift early, or remain late after a shift for coverage purposes. It is requested that you remain at your post until your replacement crew has arrived and is prepared for duty. In all situations, the replacement crew is intended to mean personnel with equivalent credentials (e.g. Paramedic for Paramedic). This is done to make sure that there is available coverage for calls that may come in at all times. For employees, such additional time worked may qualify for overtime compensation. For additional information on overtime, please consult the "Overtime" Policy.
- g. All scheduling will be completed through the online scheduling system. Once a trade is approved, it is the employee's responsibility for coverage of that shift with equal licensure.
- h. Unauthorized leave from a scheduled shift or failure to follow your scheduled work hours will result in appropriate discipline.

i. All trades must be scheduled through the online scheduling system, and approved through the online scheduling system by the Deputy Director or designee. Any trading will be subject to the following:

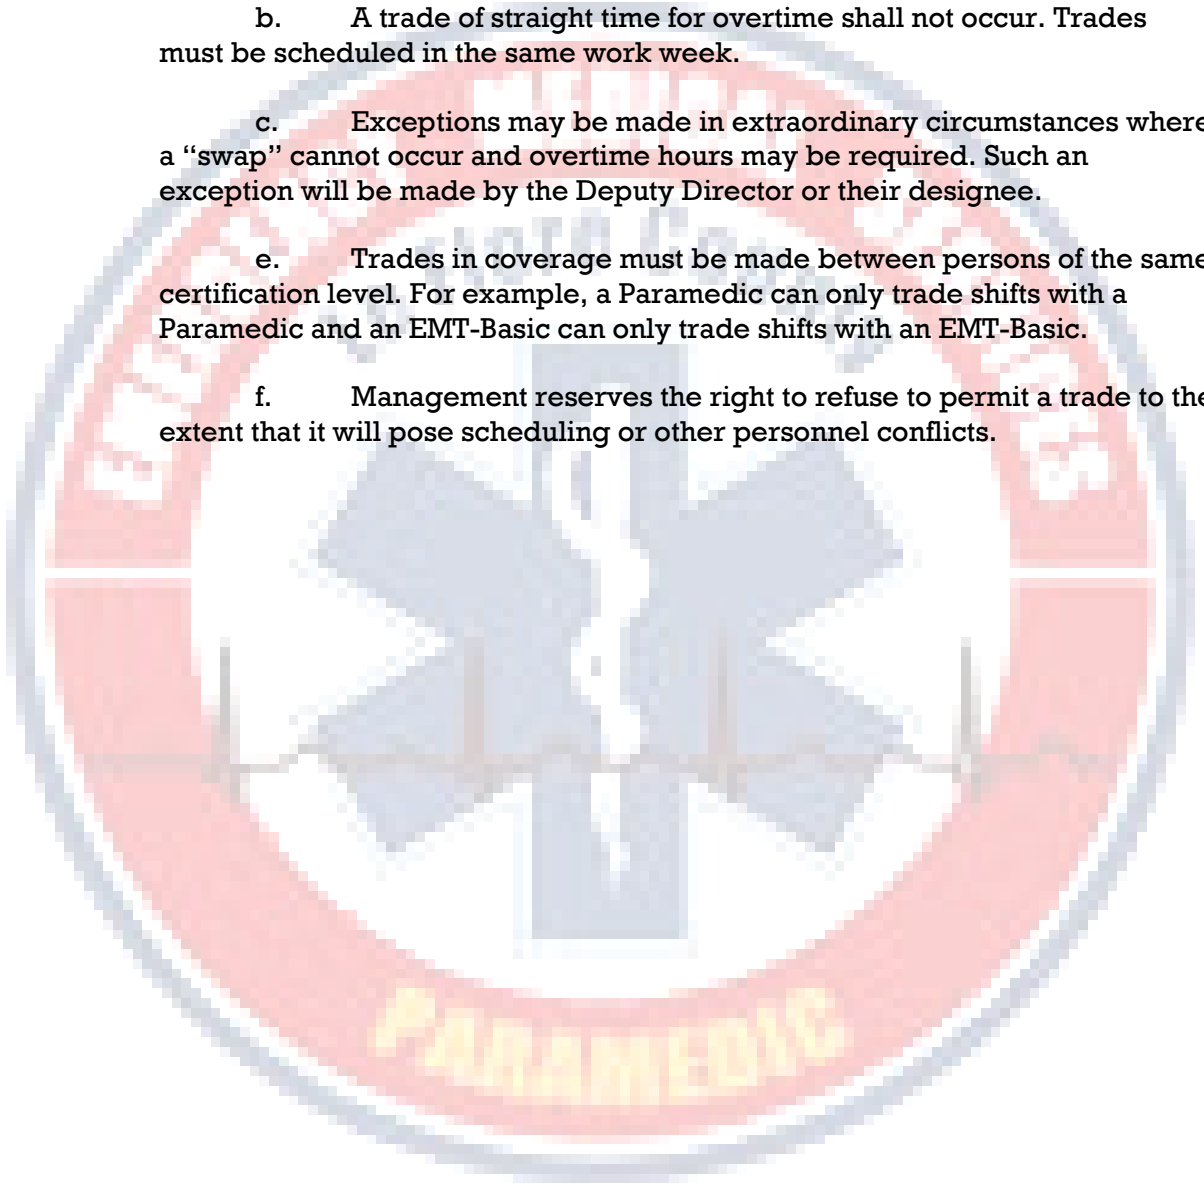

a. Equal trading shall occur. An employee shall not expect another employee to cover part or an entire shift without covering an equal amount of time for that other employee.

b. A trade of straight time for overtime shall not occur. Trades must be scheduled in the same work week.

c. Exceptions may be made in extraordinary circumstances where a “swap” cannot occur and overtime hours may be required. Such an exception will be made by the Deputy Director or their designee.

e. Trades in coverage must be made between persons of the same certification level. For example, a Paramedic can only trade shifts with a Paramedic and an EMT-Basic can only trade shifts with an EMT-Basic.

f. Management reserves the right to refuse to permit a trade to the extent that it will pose scheduling or other personnel conflicts.
